ITALIAN OPERA-L'ETOILE DU NORD. A very large audience assembled in the cademy of Music last evening to hear Meyerbeer's L'Etoile du Nord," produced after a long and careful reparation, for the first time in many years. The work as been heard in English at dates comparatively relent, but it is long since it was produced upon the Italian stage. It belonged to Mr. Max Maretzek's repertoire, but the days when he gave it, with Mme. Lagrange, Mme. Maretzek, Amodio and Brignoli, must be nearly a quarter of a century ago. The east last evening was not trueb are the one we have recited. Mme. Parti being the such as the one we have recited, Mme. Patti being the semble was so good, and Mme. Patti so pervades the plece, in a role which affords the fullest opportunity for one of the most charming aspects of her many-sided talent, that the performance was made very telling. The opera is intrinsically rather dull, musically, in story and lot, and in dramatic interest, but it affords some delightful airs for Caterina, and stirring chorus numbers, contains touches of pathos at the close of the first it contains touches of paties at the amount of spectacular display. The most was made of all this. Mme. Patti sang with the highest perfection the very various numbers of the Tambourine Song, Qui Suona, the prayer, O dolce madre mia, the Battello che sulle onde, and Qual luce or succedere, and excited enession of triumphs this winter. The scene sllowing her exquisite singing as the curtain fell

following her exquisite singing as the curtain fell on the first act was exciting, when a he was recalled again and squin and s-owered with bouquets as she stood alone, in her striking man's military costume, before the raging house. The chorus was largely increased and had evidently undergone severe drill, singing with admirable correctness, tone and spirit. After the second act Skmor Hardiit was rightly vold, and the spectacle one of the most finished and brilliant that the Academy has for hold in the sen. The minor parts were sufficiently well done not to mar the general merit of the representation. M. Durat's rile of Peter the Czar, which is a long and leading one, showed great intelligence and careful study, his business in the second act especially being remarkably well managed and winning just appliance and praise.

TAMING A TARTAR.

"A Russian Honeymoon," which was preof the Madison Square Theatre, has already made an estimable success in the bands of Murray Hill amateurs. It is an adaptation by Mrs. Burton N. Harrison from two French plays. It depicts the efforts of a Russian Count, who finds too late that he has married a Tartar, though a Pole, to tame her temper. The devices by which this is accomplished do not evoke much admiration for the husband or much sympathy for the wife; but they bring a lively story to bympathy for the wife; but they bring a lively story to a pleasant ending, afford several striking and humorous situations and bid fair to secure for the little piece a prosperous welcome. The audience was fashionable and triendly, and there was a good deal of appliance. The cast w s as follows:

Alexis Petrovich, a journeyman (afterward Gustave, Count Worofski). Mr. Frederic Breyton Poleska de Fermsiein, his wife. Agnes Hooth Baroness Vladmin, his sister (by special arrangement)

THEATRICAL INCIDENTS.

Miss Anderson's dramatic company will preeent the lachrymoso old play of "The Stranger" at a matinée on Wednesday at the Grand Opera House. The regular season at the Union Square Theatre, which ended on April 7, was the twelfth of that exceedingly popular and prosperous house.

Mr. Pitt intends to effect several comedy revivals and to produce several new comedies in the course of his eason at the Bijou Opera House, which begins next Tuesday.

The managers of the Madison Square Theatre make known the pleasing fact that the play of "The Professor" will be laid aside after the present sea son is ended. Its absence is the only good thing about Mr. W. H. Gillette, its author, will endeavor to acharton Scott in "Young Mrs. Winthrop," which play is be taken on a provincial tour.

Signor Salvini and Clara Morris were reseived with enthusiasm last night in-Boston. Next week, as our readers should not fall to note, they will be at Booth's Theatre. Salvini is to enact Conrad, "the outlaw," and Othello. Miss Morris will appear as Rosalie, the wite of Conrad, and as Emilia. Signor Salvini sails for Europe, aboard the Labrador, on May 2, and we are assured he has no intention on ever returning to America. He takes about \$60,000 as a practical and sweet remembrancer of his American trip.

THE PLANS OF MR. MAPLESON,

PROPOSED IMPROVEMENTS TO THE ACADEMY-THE IMPRESARIO HITS AT MR. ABBEY.

Mr. Mapleson sat in his office in the Academy of Music yesterday afternoon, utterly oblivious of the beautiful spring weather out of doors. His dress, however, showed symptoms of spring, for he was clad in a ew coat-the one which had been lying at his tailor's for four months waiting to be tried on-and in his button-hole was a large Jacqueminot rose-" one of the finest." When a TRIBUNE reporter was ushered into his office Mr. Mapleson received him with a smile that was at once child-like and somewhat bland, and remarked,

"Did the directors of the Academy have a meeting to-day !"

"They did not," said the impresario pleasantly. "How about the improvements that they contemplate

naking in the Academy I" "Well, there will be some made. I shall suggest sex eral mys.lf. I've got drawings of all of the finest theatres in the world. ARRESTED FOR BLACKMAIL.

DR. G. H. MARSHALL IN JAIL. HIS STORY OF THE ATTEMPT TO EXTORT MONEY FROM MARY ANDERSON. INVITELEGRAPH TO THE TRIBUNE.

PITTSBURG, April 9.—Dr. G. H Marshall, who is charged with attempting to blackmail Mary Anderson to the extent of \$10,000, was arrested this after-noon upon a warrant issued by United States Commissioner McCandless, and is now in jail, being unable to furnish bail. The information was made by the clerk of U.S. Special Agent Speese, there being two charges against m. One of these is for violation of section 3,983 of the Revised Statutes, which prohibits sending obscene mat ter through the mails. The other is for using the mails to extort money illegully.

In an interview Dr. Marshall gives his side of the story

"About the middle of last December a package was

handed in at my house. I opened it and found a letter signed 'Faith, Hope and Charity,' three pictures and a note requesting me to write to Miss Anderson and ask \$10,000 for the pictures. Well, I didn't know what to do about it; but I wrote to Miss Anderson saying that I had some things that were of value to her. twice, and Dr. Grinin responded to the second letter, asking me to send him the pictures. I replied, saying that I would please the whole thing in his hands, that I knew nothing about it and that I would forward the pictures by express. I did so, and about the middle of February I received a letter from Dr. Oriffin saying that he had placed the whole matter in the hands of the chief of police. That's all I heard of the matter until 1 saw statements in the papers to-day."

"Have you any idea who the principals were i" the doctor was asked.

" I have an idea that they are ex-convicts. When I was across the river two years ago I heard some vague allu-sion that there would be a big scheme some day and I suppose this is it."

sion that there would be a big scheme some day and I suppose this is it."

Did the pletures resemble Miss Anderson!"

"Well, I don't know; I didn't examine them closely. There were three pletures two tin-types and one card. They were taken at different slittings.

"Suppose Dr. Griffin had agreed to pay the \$10,000; how were you to let the principals know!"

"The note said that I was to put the following personal in the newspapers -'O. K. Faith, Hope and Charity. They were to make arrangements to receive the money, but as I said before I merely handed the things over to Dr. Griffin. I wrote him that I would take my \$10,000 in a check on the bank of eternity and that I would helphin to arrest the perpetrators. I don't know who they were and my only suspicion is that they are the ex-convicts. I am between the horns of a dilemma, for, according to the papers, I am either a rascal or a fool, and I want to get in between the two."

Not withstanding Dr. Marshall's assertion that he did not use the mails, there is said to be streny proof that he did. Moreover, the investigation so far made does not show any one else connected with the affair at all, and it is believed to be solely the work of Dr. Marshall.

WHAT DR. GRIFFIN KNOWS OF THE MATTER. Dr. Hamilton Griffin, who is both step-father and business manager for Mary Anderson, was at first rejectant last evening to say anything in regard to the recent attempt to blackmail that ac ress. But at last he

remarked: " I haven't time to bother with every loafer who wants to blackmail me. I know I haven't anything to conceal. and I'm quite certain Miss Anderson hasn't. But there are lots of people doing this sort of thing every day. I always turn them over to the police and bother

are lots of people doing this sor of thing every day. I always turn them over to the police and bother myself no more about it. I suppose the way in which this last matter leaked out was through the Post Office Department. These fellows never seem to blink that Miss Anderson has a father and mother who are with her all of the time; and a big brother, too. And I guess between us we are good for a dozen blackmallers.

"I never pay any attention to them, but this time it was a little different. This man Mashall wrote a letter some time ago to Miss Anderson, wherein he stated that he had some property belonging to ber that was valumble. It was nothing but a thetvoe and a pho ograph. They were sent to Miss Anderson, and, of course, feat them. Nobody would ever think they were taken for her, and everybody knows they were not. Whoever this black mailer was I haven't found out yet, but he wanted \$10,000 for returning these photographs. This Mr. Marshall seems to be all right, and I guess he: I has simply sent on the pictures that had got into his possession. How they got there beats me. Well, I cot several letters from Marshall, and several other letters signed 'Faith, Hore and Charity'. These later letters were quite modest at first, but I suspected at once a blackmailing scheme, and turned them over to take police, as I always do. They asked for money for suppressing something about Miss Anderson. Well, finding there was nothing a suppress. Het the whole thing drop. I wrote to Marshall at his post-office address, bux 187, Pittsburg, and got several letters from him. He seems to be innocent. He simply forwarded the "Faith, Hope and Charity' letters. That's all there is to it."

ANOTHER PREACHER TO TURN ACTOR.

PITTSBURG, April 9.—The Rev. Charles Steck, pastor of the Messiah Evangelical Lutheran Church it this city, has in contemplation the vacation of the pulph for the stage, and will probably make his first appear ance here some time in May for the benefit of the News-hovs' Relief Association. Mr. Steck is a 2 se senoing and good elocutionist, and is said to possess considerable histrionic ability.

THE CIRCUS BECOMES A HIPPODROME. The interior of the Madison Square Garden

showed last night that it had been thoroughly altered since the performance on Saturday night. Another ring has been added, so that now there are three rings and stage. Outside of these rings is the track for the races The building was packed last night on the occasion of the first night of the Roman Hippodrome. In the early part of the programme there were few changes. More things were going on at the same time than any one person could keep track of. Standing at the entrance and looking down the length of the building one seemed to be looking through a kaleidescope, or, as one of the men cerpressed it, "'Seems as thouch you was looking through a decaleomanie." After the performances in the rings the spectators rose up in their seas and waited impatiently for the races to begin. There were charrot races, elephant races, obtacle races, and wheelbarrow races. In the obtacle race the employs of the circus ran around the track, climbing over greased bars, erawiran around the track, climbing over greased bars, crawing under poles, clambering torough barrels, lamping over hurdles, and picking their way through neas, until coerybody thought they would drop down from sacer exhaustion. It was a funny sight, and vastly applauded.

A WEDDING YESTERDAY

THE PRESIDENT IN FLORIDA.

THE JOURNEY FROM SANFORD TO KISSIMMEE-ACCIDENT TO SECRETARY CHANDLER. [BY TELEGRAPH TO THE TRIBUNE.]

KISSIMMER CLLY, Fia., April 9.-President Arthur reached here at noon to-day, three hours after leaving sanford. The train stopped at Maitland, where the party left the car to visit Mr. Lawrence's orange grove near the station, afterward taking a carriage for another grove a mile from the station on a sheet of water christened by Mr. Lawrence as Hudson's Bay. The train then went on to Winter Park, two miles down the railroad, where the party overtook it, Alexander McCuppinger, the portly cook, who had ventured away from the car at Maitland. having to wafk two miles over the hot track, and turning up at Wister Park much the worse for wear. Secretary Chandler had the mishap to be thrown from a carriage and had his neck bruised. A similar accident, and probably more serious, oc curred in another carriage, from which Dr. Kingsley, an elderly man, and his daughter were thrown, Dr. Kingsley being painfully wrenched between the shoulders.

Colonel A. B. Linderman met the President at the

train here, and drove him to the boat, which lay moored at the pier on Lake Tapapakalaga, and which out off late in the afternoon for the region of alligators and flying ants up Kissimmoc River, aligators and flying ants up Kissimmee River, with a fair prespect of passing the night on a mind bank. Two ladies who had been with the party at Sanford came overto-day on a special car and returned before the boat started. The President had accepted an invitation on Saturday to attend a second reception and picule at Orlando, and extensive premarations had been made to receive bim, yet upon leaving Winter Park he called ception and pienic at Orlando, and extensive preparations had been made to receive him, yet upon leaving Winter Park he called the superintendent of the road and communiced him to pass Orlando at reduced speed, but without stopping, saving that he would stand on the rear platform to bow to the crowd at the station. The superintendent protested that calculations had been made for stopping, and the schedule for other trains arranged accordingly, upon which the President reposed: This is my train, and if you don't do as Isay Filigo back? There was another train just ahead and Mr. Ingraham, president of the road, preferring to risk President's displeasure than the President's displeasure than the President stepped out on the back platform, made a saleam to emiskirts of the crowd, when train suddenly stopping his swiftly entered the car, dropping into a chair on the side of the car away from the station, so that not one-third of the people assembled the ere could see him.

It has not been settled how long the President may remain hereabouts. White civilization ends here, the lower part of the State being in possession of a cow-boy race known as Gracker, who here cattle extensively over the prairie lands, and of a remanant of a race of Seminole Indiana who bunt, fish and trips crops in the Evergades. Seminole braves

tie extensively over the prairie lands, and of a rem-nant of arace of Seminole Indians who bust, fish and raise crops in the Evergades. Seminole braves were here Saturday to invite the President to visit them, and should be go to Lake Okcashouec, they propose to have a dance before him. It is likely that the insects will drive him back in a few days. In that case he will return to Sanford, then across Monroe Lake to Enterprise, where teams have been engaged to carry the party thirty-five miles across to the Atlan-tic coast at New - Smyrna for the Lands tic coast at New Smyrna for the famous fishing grounds off Mosquito Inlet. The plan then is to go up the coast to St. Augustine, where possi-bly the Tallapoosa may be waiting to take him

A PRISONER'S STORY OF ILL-TREATMENT.

CHICAGO, April 9.—Captain John J. Jones, late broker, of Boston, who was arrested here last Wednesday at the Instance of John Heiler, a burber, of Boston, on the charge that he had failed to account for a \$1,000 bond in his possesalon belonging to Heiler, and who had been kept in secret confinement since, was released on ball to-day on a writ of habeas corpus. In an interview, he says he was brutally treated by the police authorities. From Wedseaday until Saturday noon, he says, he was confined at the Central Station and confined at the Contral Station and denied a chance to see his friends. On Saturday however, one of them arranged to have him brought into court o give bail; but hefore this could be done no was secretly taken to a station on the outskirts of the city, locked up in a dark cell and refused food or water till Sunday right. All he had to eat in that time was three buns and a oup coffee, which he persuaded one of the attendants to get for him and for which he paid. To add to his discomfort the rate were so numerous and terocount that he was 5-reed to remain awake to fight them off. Once, overcome by drowstness and exhaustion, he fellasteer for a moment and was hadly bitten. Inquiring triends could lean nothing of his whereabouts.

THE TEWKSBURY ALMSHOUSE INQUIRY

Boston, April 9 .- The Tewksbury Almshouse hearing was resumed to-day. Governor Butler was absent. Mrs. Fanny R. MITCHELL AND CLEARY'S BRUTAL EXHIBITION IN THE AMERICAN INSTITUTE. The American Institute Building at Third-ave and Sixty-third-st, was crowded last night by persons who had assembled to witness the set-to between "Mike" Cleary, of Philadelphia, and "Charley" Mitchell, the English pugilist, who arrived in this country a few weeks ago.

arrived in this country a few weeks ago.

"Pat" Jordan and "Sam" Collyer had a set-to. Collyer knocking Jordan down in the second round. "Joe" Fowler and "Frank" Wilson did some effective work.

"Jimmy" Murray and "Young" Allen had a stubborn conteat which resulted in Allen's gaining a decided advantage.

The principal contest of the evening, however, was between Mitchell and Cleary, a large crowd following them from their dressing-rooms to the stage. As they appeared inside the ring they were greeted with hearty cheers, and "Pop" Whitniker presented Mitchell with a large gold medal and a handsome gold watch and chain, a grif from Richard K. Fex. Before allowing the men to spar, Caprain Gunner examined the gloves to see that they were of the required softness, and expressed a determination to stop the match should any "slugging" occur. As Mitchell cast off his onter garments, arrayed in white tights and shirt he presented a remarkable contrast to Cleary, who overmatched him in weight and size. The English pugilist presented a superb physique as he stood on the defensive, waiting for Cleary to attack. This pugitist presented a superb physique as he stood on the defensive, waiting for Cleary to attack. This the latter did, but Mitchell delivered a well-directed blow on Cleary's chest, following it up with a heavy blow on his nose. Some heavy hitting then took place, Cleary getting Mitchell's head into chancery, but the Englishman was too quick for him and soon broke away.

then took piace, Cleary getting Mitchell's head into chancery, but the Englishman was too quick for him and soon broke away.

In the second round Mitchell put in some telling blows. Cleary during all this time was not idle, and did his best to break his adversary's guard and get in upon him, but without effect. Mitchell followed up blow after blow, finally knocking Cleary against the ropes. In the next round Mitchell changed his tactics and rushed upon Cleary, forcing the fighting from the start. Every time he hit Cleary in the chest he followed it up with a stunning blow on the nose. Cleary struck at Mitchell with telling effect, hitting him a terribic olow on the side of the nock. This only served to arouse Mitchell, who rushed in upon Cleary, striking him with full force under the chin, throwing him on the boards. As Cleary rose to his feet and staggered toward the Englishman, Mitchell struck him full in the chest, once more flooring him. He was about to repeat the performance by knocking him down again when Cuptain Gunner and four officers jumped upon the stage with raised clubs and separated the combatants. Prolonged cheers greated Mitchell as he was led by the officers to his dressing-room, followed by the crowd. During the course of the evening Pete McCoy mounted the stage and offered to "knock out" "Billy" Madden inside of two rounds, but Captain Gunner would not allow the match to take place. Sherily after entering the building Slade complained that his waten had been stolen, and other rouberes were reported later on.

A VICTORY FOR BRADLAUGH.

A VICTORY FOR BRADLAUGH.

LONDON, April 9,-In the House of Lords to-day in the case of Clarke vs. Bradlaugh, Lord High Chancellor Selborne declared that Mr. Clarke, as a common reformer, was unable to sue Mr. Bradlaugh for sitting and voting in the House of Commons without taking the oath of allegamee. The judgment against Sir, Bradlaugh was therefore reversed with cost. Lord Justice Blackburn was the only dissentient from the judgment.

THE COMING INISH CONVENTION.

There is a growing opinion among the Irishmen of New York that the coming convention at Philaciphia is going to be a grand " fizzle." The split in the also at Germania Hall on last Sanday occurred not be tion Committee, but because of a suspicion that D Wallace's party was going to try to control the conver tion by unfair means. This was the opinion expressed to a Thistone reporter yesterday by a number of frishmen E. J. Rove, president of the Irish Confederation of America, asked: "Did Mr. Chiford speak with the author-ity of the Confederation on Sunday!"

"No, he did not. When he reports his action to the

Canfederation, it will be the duty of the Confederation to recall him. At the same time, probably, most of the Irishmen in New York agree with him. They know that John Devoy is trying to run the convention and is using Wallace for his purposes. The physical force of the party in this city is in the majority, and will be at the For New avention; if the thing is going to be run in the interknown. The League has begun to cheat the convention

year, because the contonl was arrain to investigate a books. Take branch No. 1. This branch has not raised a dediar, or held a meeting for 18 months, and still it will send delegates to Philadelphia. Ward branch No. 7 bash't had a meeting at which 25 men were present for 8 months, and will send delegates. By scatting delegates on false counts like this, it is hoped to pack the conven-tion so that their resolutions will be carried. The Irish National Lord Legace is a skeleton organization, but it

tion so that their resolutions will be carried. The Irish National Land League is a skeleton examination, but it is geing to try to control at Philadelphia."

"What will be done if there is a majority of the dynamite element at Philadelphia."

"Dr. Wallace and his men are going to provide for that. The convention meets on April 26. On April 25 there is to be grand caucus of the Land League at Philadelphia. Here teaoultions will be cut and dried for the next day's convention. The League will also try to have the Committee or Credentials chosen from its members, and this committee will refuse to admit such delegates as are known to be afterse to the moderate party. Their object is of rourse to prevent anything but milk and-water resolutions being passed at the convention."

"Then the representation at Philadelphia will not be "No. For one thing, hardly any cities outside of New York and those of the Eastern States will send delegates. And again, as I have said, obnexious delegates will be raised out." "What programme, then, will be issued by the conven

tion!"
"I still think that there will be a majority of physical force societies represented, and that a dynamite programme will be adopted."
"Then you don't think the convention will be a harmonious gathering!" monious gathering?"

"If Parnell came, it might be. But he is too wise toome. As it is, I think there will be a great battle at Philadelphia, and the result will be very injurious to the mecess of the convention."

KNOWN TO THE IRISH LEADERS.

There are some Irishmen in the city who say that the prisoners recently arrested in England, more particularly Norman, Wilson, Gallagher and Dalton, are known to them. How far this is true it is impossible to say. "We know," they say, mysteriously, "but we are not going to say anything till a r the trials -which is wise for more reasons than one." One of them, under promise that his name would not be used, said to a TRIBUNE reporter yesterday.

"These four men are Americans. They are all un-

**These four men are Americans. They are all unmarried. They have all had a training in the science of explosives—where, I decline to state—and not one of them is a leader. With the exception of one, the names given by them are false. Two of them, at least, only left this country for England at the time of the explosion in the Government offices. More I decline to state. It is not to their interest or to ours that the police should be able to trace them. I may add that they are only four of the number of men we have sent over accredited to the leaders in England, and they are not an especially imperiant four. If you want any more, go to John Devoy or Breslin, of The Irish Nation, and ask them who Gallagher is. I don't state anything, but just ask them what they know about him. I refuse to say any more."

The reporter went to Mr. Breslin, of The Irish Nation, and asked him how far it was true that he was sequanted with Gallaher. The reply was that Mr. Breslin knew a 1r. Gallaher. In fact two of them, in Brooklyn; that the age published corresponded with the age of one of them, and that he did not know whether the man arrested was his acquantiance or not. The Gallaher he knew was more like apareon than a conspirator. He concessed this the doctor was an Irish sympathizet and that he did not know whether the man arrested and contessed bimself a paysician, which was, in owned, sufficiently suspicious. When Dr. Gallagher was in town he frequently called at the Irish Nation office, but he had not now called Lere for a considerable time. If Irishmen in this city said that he Gallagher arrested at Lambeths, London, was the same Gallagher. Microal Gallagher, it is not to go to Chicago, and has not been heard of since then. married. CHARTER ELECTIONS IN PATERSON.

The charter elections at Paterson, N. J. vesterday passed off very quietly, a moderate vote havng been polled. The contest for Mayor was between David L Gilmor (Rep.), the present incumbent, and Nathan Barnert (Dem.). The Prohibitionists had a can tidate in the field, A. B. Wiggin, but the temperance destion did not enter largely into the contest. The crincipal issue was raised by the Republicans, who as ectes that the Democrats in the Board of Alderme and elsewhere in the city, by a policy of obstruction and by inflation, had prevented any improvements of the arrects this year merely because the programme of the Republican majority did not suit the Democratic bosses. Beturns at midnight indicate the election of Barnert,

(Dem.), by 400 to 500 majority. The Democrate gain

POLITICAL NEWS.

CONSIDERING COL. SPENCER'S CASE. The regular meeting of the XIIIth Assem bly District Republican Association was held last night at No. 252 Eighth-ave. Justice Hugh Gardner moved that that portion of the resolution adopted at a previous meeting, requesting that Colonel Charles Spencer resign as a delegate to the Contral Committee, be expunged from as a delegate to the Central Committee, be expunged from the minutes. Colonel Spencer, in a speech, explained that his action in voting for John J. O'Brien for County Clerk was because he had ple'ged himself to do so pre; vions to the meeting of the Central Committee on organization. I same Dayton followed by denouncing O'Brien and expressed his opposition to the proposed action, asserted that the excuse offered by Colonel Spencer was not sufficient. A vote being taken the motion was adopted. Mr. Day'ou next offered a resolution that the State Committee be called upon to recoranize the Republican party in this city and county. Colonel Spencer moved that the motion lie on the table. He maintained that the State Committee had no more power to reorganize the party than did the meeting itself, and that no person was better aware of that fact than Justice Gardner who advocated it. Various amendments were proposed and after the resolution had been changed so as to read that a committee of three be appointed to lay the subject of reorganization before the State Committee, it was adopted, but the meeting adjourned without naming the men to compose the committee.

ASKING FREEDOM FOR THE MAYOR. The Young Men's Republican Club last evening adopted resolutions declaring that the funda-mental principles of good municipal government, applicable to this city, are, that the Mayor shall be elected by the people for a short term of office, and shall have the power of appointment and control without need of confirmation by the Board of Aldermen. The club favors the adoption of the charter amendments recommended by Mayor Edson, so far as they are in accordance with these principles, and condemns the bill known as the Murphy Charter, in that, while making a pretence of reform in reducing the number of commissioners of departments, it perpetuates the worst abuses of the present system by reisining the confirmatory power of the Board of Aldermen. It was also resolved that a protective tariff is for the best good of the whole country.

GENERAL COMMITTEES IN BROOKLYN.

The Democratic General Committee of Kings county at its meeting last evening approved the plan of reform in the civil service of Brooklyn proposed by the Civil Service Reform Association, which will be brought before the Legislature. The committee also voted that interference by the Legislature in the local affairs of the city was to be deprecated.

The Republican General Committee of Kings County will meet this evening. Several members, including Michael J. Dady, S. J. Maddox, Marcus Baird and others of the Administration Republicans are expected to re-

A FESTIVAL TO AID A NEW HOSPITAL.

A novel entertainment will be given at Delonico's on the afternoon and evening of April 24, for the benefit of the Skin and Cancer Hospital, which has recently been started in this city. The entertalumen will be a "Kirmess," an imitation of a time-honored featival of the spring which is celebrated in Holland. Delmonico has offered his ball-room and other rooms free of charge for the festival, and will furnish the music. In the afternoon there will be sleightof hand performances and shows for the children and in the evening there will be dancing. Nothing but flowers and retreshments will be offered for sale. The ladies who will take part in the festival will wear Dutch costumes and a number of young girls will dance the national dance of Holland. The Kirmess will be under the management of the Ladies' Auxiliary Board of the hospital. The members of the Board are Mrs. John A. Lowrey, Mrs. H. A. V. Post, Mrs. E. C. Hall, Mrs. L. D. Bulkley, Mrs. B. H. Van Auken, Mrs. F. T. Woodbury, Mrs. W. C. Dewey, Mrs. D. T. Worden, Mrs. G. H. Fox, Mrs. Richard Irvin, Jr., Mrs. James B. Hunter, Mrs. Julius Craffi, Mrs. L. TWO WOUNDED SAILORS.

A Danish sailor named Frederick Nelson, of No. 87 Cherry-st., was found last night by the police of the Seventh Precinct bleeding profusely from a deep gash in his right wrist. In his pocket was found an ugiy ooking sheath-knife covered with blood. He said he had had a fight in Catharine-st, near Cherry. An hour or so later an English sailor named Francis R. Bolton or so tater at English was found under hiseye. He claimed to have been attacked and beaten by stringers. The police think the wounded men are acquatetaness, and that too much liquor caused a fight. The salors dely any acquaintance with each other. Nelson was sent to the Chambers Street Hospital and Bolton was locked up.

CONVICTED OF MURDEROUS ASSAULT. PHILADELPHIA, April 9 .- A verdict of guilty

was to-day rendered in the case of Catharine Metzger, the German servant girl who recently committed a mar derous assault with a hatchet upon her unstress, Mrs. Estabeth May, while the latter was asleep in bed.

SHOT BY HER HUSBAND.

Rebecca Bruggy, age thirty-five, of No. 343 West Forty-third-st., was shot in the right breast by her husband, Frankin Bruggy, at 11:15 o'clock last night. The wound was a serious one, and the woman was take to Roosevelt Hospital. Bruggy was arrested.

SILICATE OF SODA AS AN ANTI-PUTRESCENT. The experiments made with a view to determining the anti-putrescent properties of silicate of soda show, according to Complex Rendus, that in whatever proportion the substance was added to glucose, grape sugar, etc., the same effect ensued—that is, in proportion to the per-

entage, even so small a quantity as one part in a buncontage, even so small a quantity as one part in a hundred being sufficient to produce a decided influence. In one experiment five vials were filled, each with fity cubic centimetres of milk, and while one was left unaffected, the others had respectively five, ten, fifteen and twenty centiframs of the silicate of soon added. In the space of three days, the first gave an acid reaction not shared by the rest; after a little time, however, the rest exhibited the same reaction, but the vial containing twenty centigrams experienced no change.

OBITUARY.

JAMES BURT. James Burt, a well-known business man of Warwick, N. Y., died there on Sunday in his eighty-sixth year. Mr. Burt belonged to the old family of Burts, which came from Connecticut in the latter part of the last century. He received a common school education, and began his business career at an early age. For twenty-one years he was president of the Chester National Bank, and during that time was never absent from the weekly directors, menting. He was one of the National Bank, and during that time was never absent from the weekly directors' meeting. He was one of the original promoters of the Warwick Valley, now the Lehigh and Hudson River Raliroad, of which he remained a director until his death. He was the owner of a large farm in Warwick, and spent much of his time during the latter part of his life in its management. Since the death of his wife, nearly twenty years ago, Mr. Burt has lived with his daughter, Mrs. Miller, at the old homostead. The funeral will take place to-morrow.
